## Tell me more...

B CORP IS A GLOBAL CERTIFICATION that recognises businesses that don't just do well but also do good. To achieve it, companies must meet some of the highest standards of social and environmental responsibility—showing they care about their people, their communities, and the world around them.

For Castle Leslie Estate, this certification is significant. It's something which reflects the values we already hold every day. It's not just about running a world-class hospitality business—it's about how we care for one another as a team, how we support

independent businesses across the Border region, and how we give back to Glaslough, the community at the heart of our Estate.

Being a B Corp is recognition that when guests come here to relax, revive, or celebrate life's most significant moments, they are part of something bigger: a place that restores, regenerates, and uplifts everyone it encounters. From the suppliers we partner with, to the volunteering we do, to the welcome we extend to each guest, Castle Leslie Estate shows that hospitality can be both exceptional *and* purposeful.

Business that ... care about their people, their communities, and the world around them

5

# The Growth of the Movement

Globally, there are now over 9,000 B Corps employing over 800,000 people in 100+ countries. In Ireland, we proudly have over 60 B Corps, with many more in the certification process and 500+ businesses actively utilising B Lab's impact measurement tools in the past 12 months. Ireland is now home to one of the world's fastest-growing B Corp communities!

161 Industries

## Why is Castle Leslie Estate taking part?

Castle Leslie Estate is already deeply committed to sustainability, community support, and ethical business practices. For example:

- » Supporting local SMEs: Over 42% of supplier spend is within 50km, with over €3.1m spent on independent businesses, many in the under-invested Border regions of Ireland and Northern Ireland.
- » Championing inclusion: 33 of 82 suppliers are majority-owned by women or underrepresented groups.
- » Employee well-being: 99.7% of staff are local to Monaghan, with volunteering encouraged (1,764 hours donated in recent years).
- » Environmental action: Efficiency measures are in place for energy and waste, with targeted reductions in landfill and energy use.

Becoming B Corp is a natural next step—it provides external validation for these efforts, ensures accountability through independent verification, and places Castle Leslie Estate among a respected global community of responsible businesses.

What are the benefits of B Corp for Castle Leslie Estate?

## A

### Recognition & Credibility

## $Community \& Local \ Economy$

### Impact

It strengthens Castle Leslie Estate's role as a cornerstone of the Monaghan and Border-region economy.

It showcases its investment in independent, women-owned, and long-term supplier relationships.

F

### $Continuous\ Improvement$

The B Corp framework encourages ongoing progress, helping Castle Leslie Estate to set clear targets and track improvements in energy, waste, diversity, and governance.

It creates opportunities to deepen supplier engagement on sustainability and social impact.

At Castle Leslie Estate, becoming a B Corp means aligning our heritage and values with five key pillars that define what it is to be a truly responsible and regenerative business. These pillars — Governance, Community, Environment, Workers and Customers — reflect not only how we operate but also why our role as a family-owned estate, employer, and hospitality destination matters so deeply.

1

Governance is about how a business is run at its core. For Castle Leslie Estate, this means ensuring that our mission, ethics, transparency, and accountability are embedded in everyday decision-making. It reflects the estate's longstanding commitment to doing the right thing, openly and responsibly, in ways that are true to our values and respectful to our community.

2

Community highlights the role a business plays in the society around it. For Castle Leslie Estate, this connection is profound: we are rooted in Glaslough and the surrounding region, and our success is interwoven with the livelihoods of local suppliers, community groups, and civic life. Supporting independent businesses, investing in regional partnerships, and encouraging staff to give their time and skills to charitable causes are all ways the estate strengthens its ties and contributes positively to the broader community.

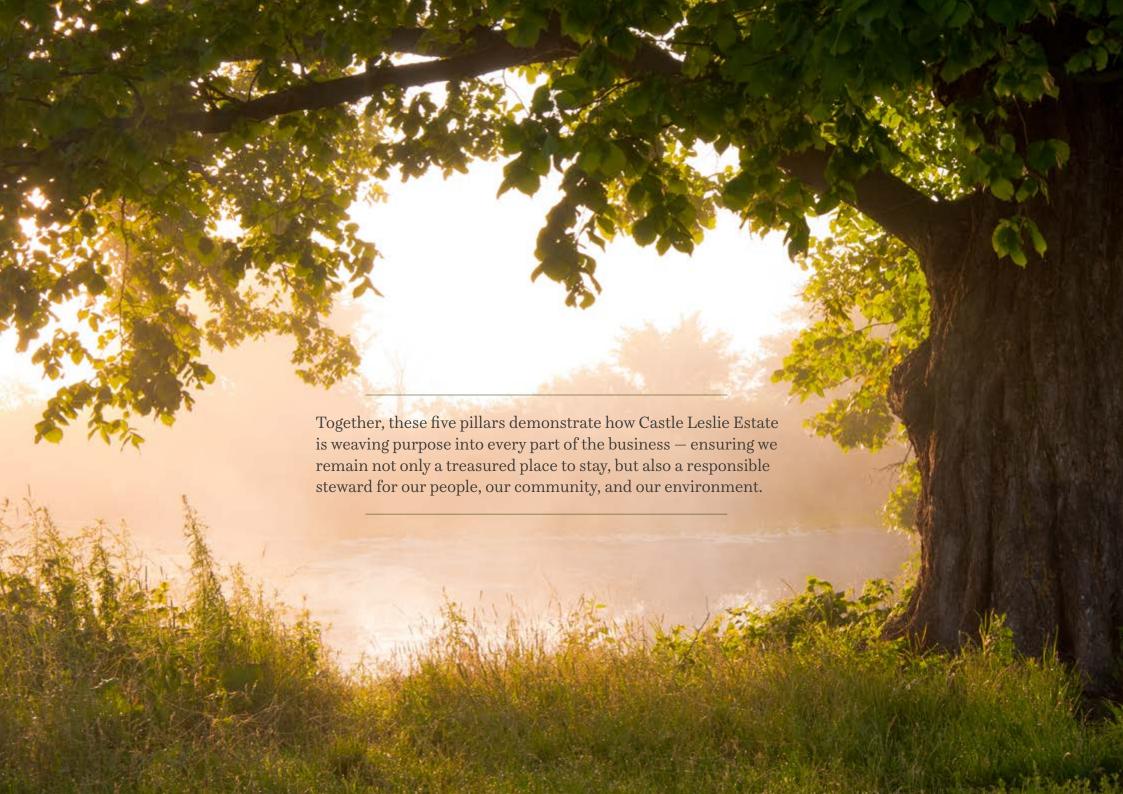

3

Environment recognises the responsibility businesses must protect the planet. For Castle Leslie Estate, safeguarding our land, water, and natural surroundings is central to who we are. From managing energy and waste responsibly to investing in biodiversity and innovative water projects on our farm, our focus is on preserving the unique environment of the estate for future generations, while operating in ways that respect and protect the world around us.

4

Workers focus on how employees are supported, developed, and engaged. At Castle Leslie Estate, our people are at the heart of everything we do. From providing a safe, welcoming workplace to creating opportunities for growth and career development, we strive to ensure that working here is not just a job but a meaningful and rewarding experience.

Customers reflect the value a business creates for those it serves. At Castle Leslie Estate, this means more than providing excellent hospitality. It is about delivering experiences that are restorative, regenerative, and deeply respectful of the trust our guests place in us. We aim to ensure that every interaction leaves a positive imprint, not only on our guests but also on the community and environment that make the estate special.

## Castle Leslie Estate — Our B Corp Journey

### Certified B Corporation<sup>™</sup> Score: 81.5

 $For fiscal\ year\ ending\ 31\ December\ 2023$

### **Testimonials**

Rose Marcario Former CEO of Patagonia:

"The B Corp movement is one of the most important of our lifetime, built on the simple fact that business impacts and serves more than just shareholders; it has an equal responsibility to the community and to the planet." Joanna Allen, *CEO of Graze*:

"There can be a misconception that B Corps are fluffy organisations that are not commercially driven. Actually, if B Corp is going to be successful, it will be because it delivers for people, planet and profit."
